About Adirondack Young Professionals (ADKYP)

Originally created as a group project via Workforce Investment Board’s North Country Leadership Class of 2007, the Adirondack Young Professionals (ADKYP) group was born from an effort to create a “cool community” – that is, an area known for its activities and resources geared toward younger generations of up-and-coming professionals. Since then, ADKYP has sought to retain and attract young professionals to the area through its scenic and recreational resources, volunteer and civic engagements and – of course – serious networking opportunities.
